Accredited by

Accrediting Commission International (ACI)

Beebe, Arkansas, USA

Dear Kingdom Laborer,

Instead of another discipleship program, you can now equip your young ministers with an accredited education. They will graduate with an Associate in Ministry and be honored during a full cap and gown ceremony.

Our textbook is a non-commentary curriculum in which the student will learn 1,000 Biblical truths along with their practical application for everyday life. Plus, the students Bible becomes their real textbook making this course much simpler for those not yet skilled in English.

The goal of Ministry International Institute is to help the International Churches located in the USA. We believe that by helping you grow your church and make disciples, together we can fulfill the Great Commission to reach all the Nations for the cause of Jesus Christ. Our Bible Institute is now located throughout the United States, Canada, Africa, India and Jamaica. We are excited about building relationships and making disciples, and would love to one day have our Institute taught in the Nation that your church represents.

Again, we offer you the ability to host a satellite campus of MII in your local church. If you are connected to other churches each could host a MII Campus. In order to begin the process, you must first identify someone in your church that will teach. The teacher must hold a college diploma or must have a high school diploma along with an ordination from the church or a church organization. We prefer the Pastor of the church teach the curriculum; however, we can work with a qualified appointee established by the church board or Pastor.

Feel free to send an e-mail or call at the telephone number or e-mail address listed above, and a MII consultant will be happy to set a time to meet with you to present the Institute programs.

Here to Serve,

Dr. J. Tony Slay, CEO
Ministry International Institute

OUR CAMPUS IS THE WORLD
