Beebe, Arkansas, USA

Dear Kingdom Laborer,

Establishing the Kingdom of God around the world through the International Churches in the USA is the heart of God. MII in phase one wants to give you and your churches the tools to train ministers, empowering them with accredited education. This will give you stronger churches and the ability to reach out with greater influence.

Phase two would give you the ability to cover mission schools in your own country. MII will not place a mission school without an administrative covering in the USA to work with. We believe you can do this better than us. You would be responsible for the correct information coming to us such as applications, transcripts of previous education, and grade sheets. All of these would need to be converted into English before arriving at MII. (WE HAVE MADE THE PAPERWORK PROCESS VERY SIMPLE) This would give MII the ability to give the graduates an Associate in Ministry and 60 credit hours for attending our two year school.

It is the goal of MII to make as many disciples around the world as possible and to empower them with credibility. This is why we keep our prices lower than most by far. We also have a program to economically empower our teachers in the USA. Our curriculum is second to none for training ministers and church leaders.

To host a Ministry International Institute in your Church all you need to do is contact us at the number or e-mail address listed above. We will have a MII consultant set up a time to meet with you to answer any questions you have.

Here to Serve,

Dr. J. Tony Slay, CEO
Ministry International Institute
